# 81

# TESTIMONIALS

I have attended numerous medical conferences, family conferences, EL-PFDD meetings, and galas across a vast range of therapeutic areas (although never all in the same week), and this surpassed them all. The details of the conference were also very inclusive and accessible, including the clinical trial panel, siblings panel, the siblings camp, Dad's Den, and ASL translator. Numerous families that I met were so thankful for the opportunity to be connected with their "second family."

- June, Acadia Pharmaceuticals

We are so grateful for the outstanding Conference! All who participated were impressed by the thoughtful program, the informative sessions, and the special bond created among us all. Importantly, the powerful interactions did not stop when the meetings were over: the event gave rise to new collaborations united in the Hope to bring safe and effective drugs to those with PWS!

- Dvorit, Aardvark Therapeutics

I loved this convention. It felt like such a safe and happy place. I learned lots of new information that I'm implementing daily right now.

- Anonymous, PWS Parent

The atmosphere at the convention was very warm and joyful. The theme of 'hope' was ideal for this year, as you could just about feel the hope that filled the area as families interacted with each other!

- Anonymous, PWS Parent

The Arc of Alachua County's PWS program wishes to congratulate and extend our sincere appreciation for the outstanding PWS | USA conference 2023! The FDA Externally-Led Patient-Focused Drug Development session was a powerful example with a particularly meaningful and strong impact on all attendees. One cannot help but get the feeling PWS | USA is on the verge of very significant accomplishments for people living with PWS.

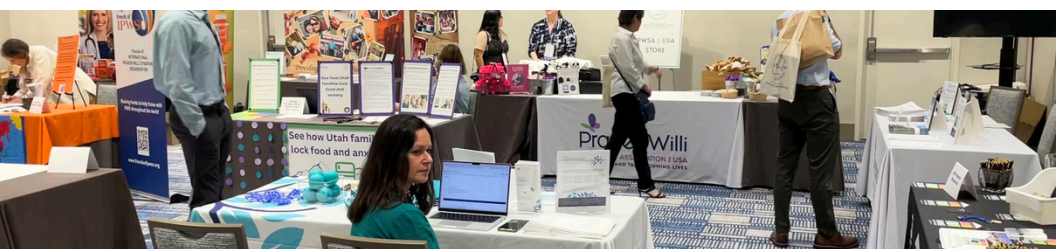

- Mark, Arc of Alachua County (Residential Provider)
